

# Overall Concepts and Technologies

## 1. Overall system

## 2. Development Environment:

### 2.1 overall technologies

	WebApp	MobileApp	Database
Language	Java html (Mackup language) css (Mackup language)	Java	
Operational systems		Android 4.2.2	
Client and server	Tomcat (server)	Android App (client)	PostgreSQL (server)

### 2.2 Eclipse Java IDE

Eclipse Java IDE, (Eclipse IDE for Java EE Developers)

Website: <http://www.eclipse.org/>

License: ECLIPSE PUBLIC LICENSE

### 2.3 Team Collaboration:

SourceForge, <http://sf.net>

Link of our project: <https://sourceforge.net/projects/amos2013/>

### 2.4 JUnit

Each class is tested by JUnit test case.

Website: <http://junit.org>

License: Common Public License 1.0

## **2.5 Maven**

Apache Maven is a software project management and comprehension tool. Maven can manage a project's build, reporting and documentation from a central piece of information. (A version management for libraries)

Website: <http://maven.apache.org/>

## **3. Web application**

### **3.1 Operating Environments:**

Java, [JDK 1.6](#), Tomcat 6.0

### **3.2 Languages**

Java, html, css and Ajax (Javascript)

### **3.3 Tomcat 6**

Tomcat 6 used as a servlet container.

Website: <http://tomcat.apache.org>

License: Apache License 2.0

### **3.4 Libraries:**

#### **3.4.1 Wicket**

Wicket is one of the web application frameworks for doing web application programming in Java.

Website: <http://wicket.apache.org/>

License: Apache License 2.0

#### **3.4.2 ORMLite - Android persistence library**

ORMLite library is used to control the database, including creating, deleting, updating tables and records, and so on.

Website: <http://ormlite.com/>

License: Open Source License

#### **3.4.3 jetty-all-server-7.6.3.v20120416.jar**

It was pre-deliver with the Wicket quick start to get a new wicket project. It comes from Maven repository.

License: Apache License 2.0 and Eclipse Public License 1.0

#### **3.4.4. postgresql-9.1-901.jdbc4.jar**

PostgreSQL is an open source object-relational DBMS supporting almost all SQL constructs.

Website: <http://postgresql.org>

License: PostgreSQL License

## **4. Mobile application**

### **4.1 Operating Environments:**

Java, JDK 1.6, Android SDK 17

### **4.2 Operation system:**

Android 4.2.2

### **4.3 Libraries:**

#### **4.3.1 ORMLite**

Website: <http://ormlite.com/>

License: Open Source License

#### **4.3.2 mti-rfid.jar**

This is the library with low level command instructions from the vendor of the reader, which are used in our app project: For more information go the github project of the vendor: [https://github.com/mti-rfid/RFID\\_ME\\_GUI\\_APP](https://github.com/mti-rfid/RFID_ME_GUI_APP)

#### **4.3.3 PostgreSQL: postgresql-9.2-1002.jdbc4.jar**

PostgreSQL is an open source object-relational DBMS supporting almost all SQL constructs.

Website: <http://postgresql.org>

License: PostgreSQL License

#### **4.3.5 rfid-inventory-management-web-database.jar**

This is self developed package.

**License:**

## **5. Hardware**

### **5.1 RFID reader: RFID ME™ (RU-888)**

Website: <http://www.mti.com.tw/rfidme/>

### **5.2 Tablet: Nexus 7**

The layout of the mobile application is optimized to the resolution of this tablet.

Website: <http://www.google.com/nexus/7/>

## **6. Database**

### **6.1 Persistence Technologies: PostgreSQL**

PostgreSQL is the world's most advanced open source database.

Website: <http://postgresql.org>

License: PostgreSQL License.
